

GLOBAL AGILE
SERVICES

An Eye on Your Fleet & Fuel Tanks

At Global Agile Services, we specialize in comprehensive solutions for fleet and fuel management. Our offerings include all necessary hardware, equipment, and software, complemented by installation and optional training services. With over four years of experience in the IoT industry, we excel in deploying state-of-the-art IoT controllers designed to streamline operations such as Fleet and Fuel Management, Genset Monitoring, and Power Automation.

Benefits

With foxfuel, you gain

Accurate Data: Achieve 99.2% accuracy with our advanced fuel sensors for precise monitoring.

Cost Management: Utilize sophisticated fuel-related reporting tools to manage costs and track fuel usage trends effectively.

Business Efficiency: Enhance operational efficiency and achieve cost savings through our integrated technologies.

Single Provider Advantage: Experience seamless integration and optimization across all components.

Fleet and Fuel Management Solutions

Real-Time Vehicle Tracking: Monitor fleet movements in real-time for optimal routing and timely deliveries.

Trip History and Analysis: Analyze past trips to improve future performance.

Instant Fuel Level Updates: Receive real-time updates on fuel levels to manage consumption efficiently.

Refueling and Pilferage Alerts: Detect and respond promptly to refueling activities and theft incidents.

Trip Management and Monitoring: Oversee trip details and monitor progress effectively.

Geo-Fencing: Set geographical boundaries and receive alerts for vehicle entries and exits.

Dashboard and Reports: Access comprehensive reports and dashboards for detailed insights into fleet operations.

Fuel Level Sensor

Explosion-Proof Design: Safe deployment in hazardous environments.

Volume and Temperature Monitoring: Accurate measurement of fuel volume and temperature.

Refueling and Draining Detection: Prevent unauthorized actions and manage fuel efficiently.

Fuel Consumption Monitoring: Optimize fuel usage for improved management.

Fuel Pilferage Detection: Effectively identify and address instances of fuel theft.

4G Enabled IoT Controller

3G/4G Support and GPS: Reliable data transmission and precise location tracking capabilities.

Ignition and Battery Tamper Detection: Enhanced security features to safeguard assets.

Digital Display and Live Location: Real-time updates and alerts for proactive management.

Green Driving Features: Encourage eco-friendly driving practices among fleet operators.

Cutoff Alerts: Receive timely notifications for critical operational scenarios.

Software Features

Vehicle Location and Fuel Level Monitoring

Vehicle Tracking and Fuel Monitoring

Fuel Level Graphs

Refueling and Drainage/Pilferage Reports

Statistical Reports

Ignition On/Off Reports

Real-Time Fuel Monitoring and Alerts

Third-Party Integration

Dashboard & Analytics

Our comprehensive fleet and fuel management solution caters to a diverse range of vehicles and commercial assets. FOXFUEL GPS Trackers accommodate various usage scenarios, while our adaptable fuel-level sensors fit nearly any tank size. FOXFUEL Online provides customized reporting to meet all your fleet management needs. Rely on our advanced technologies and expertise to enhance business efficiencies and achieve significant cost savings.

Conclusion

Explore the future of fleet and fuel management with Global Agile Services. Our integrated FOXFUEL solution offers everything you need to optimize operations and manage costs effectively.

Count on FOXFUEL for a seamless, productive, and cost-efficient fleet management experience.
